CAREER OBJECTIVE:

Driven **BS Computer Science graduate** specializing in **Web Development**, with a strong foundation in building responsive **front-end interfaces** and scalable software solutions. Experienced in leveraging modern frameworks like ReactJS, Javascript, and Python alongside practical experience in organizational web development, digital operations, and IT project management. Eager to contribute technical skills and a problem-solving mindset to a dynamic Front-End or Software Development team.

EDUCATIONAL BACKGROUND:

College:	Bachelor of Science in Computer Science
Major	
2022 - 2026	in Web Development University of the East Caloocan City 105 Samson Rd, Caloocan, Metro Manila
High school:	College of St. Catherine Quezon City
2016 - 2022	362 Quirino Hwy, Project 8, Quezon City, 1116 Metro Manila
Elementary:	St. Dominic Savio School of Kalookan City
2010 - 2016	258 Rivera St., Sta. Quiteria Caloocan

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, PHP, Java, C++
- **Frontend Development:** React.js, HTML5, CSS3, TailwindCSS, Bootstrap
- **Backend Development:** Flask, Django, PHP, Node.js, REST APIs
- **Database Management:** MySQL, phpMyAdmin
- **Tools & Technologies:** Git, GitHub, Firebase, Figma
- **Core Concepts:** Responsive Design, API Integration, MVC Architecture, Data Structures & Algorithms

EXPERIENCE:

Web Development Intern | JG Superstore | May 2025 - July 2025

- Contributed to the development and maintenance of e-commerce web features, ensuring a seamless and responsive user experience for customers.
- Assisted in debugging front-end issues and optimizing website performance using modern web technologies.

Organization Web Developer: Designed and engineered official organizational platforms, including the main ACSS website and a React-based NFC Card Attendance System to streamline students for major events.

- Programmed custom interactive web applications and developed the ACSS Space Invader Game and the YFA Matching Pet Game.
- Built responsive, logic-driven front-end features utilizing Vanilla JavaScript, HTML5 Canvas, and CSS3 root variables

Co-Owner & Digital Operations Lead | The Choco Plug | 2025-2026

- Manage end-to-end digital operations and social media presence for a growing local confectionery business, acting as the primary point of contact for customer communications.
- Drive user engagement and handle online order fulfillment, strong project management and client relationship skills.

CERTIFICATIONS

These certificates showcase my key achievements in online learning and my ongoing dedication to personal and academic growth as a freshman.

- Front-End Engineering with React – CodeSignal
- React Basics – Meta
- Introduction to Front-End Development – Meta
- Programming with JavaScript – Meta
- Implementing MVC ToDo App with Flask – CodeSignal
- Mastering Algorithms and Data Structures in Python – CodeSignal
- Version Control (Git & GitHub) – Meta
- HTML and CSS in Depth – Meta

PROJECTS

- **VitalWarriors** - A hardware and software integrated web application that detects temperature via open camera APIs (ReactJS, TailwindCSS, TypeScript).
- **ACSS NFC Card Attendance System** - An interactive attendance-checking website for organization members utilizing NFC card identification (ReactJS, CSS).
- **ACSS Space Invader Game** - An 8-bit style interactive web game developed specifically for the ACSS 2025 Org Week (Vanilla JavaScript, HTML5 Canvas, CSS3).
- **YFA Matching Pet Game** - A responsive matching game built with custom root variables to promote the Youth for Animals organization (Vanilla JavaScript, HTML5 Semantic, CSS3).
- **Minimalist Weather Web App** - A black-themed weather dashboard featuring a responsive layout and dynamic weather icons (HTML, CSS, JavaScript, Bootstrap).
- **Modern Dave's Portfolio 2026** - A newly developed, highly responsive personal portfolio website built to showcase my latest technical projects, skills, and professional experience (ReactJS, TailwindCSS)..
- **To-Do List Website** - A lightweight task manager featuring a minimalist UI for effective daily task management (JavaScript, HTML, CSS, Bootstrap).
- **ABC Product Website** - A responsive webpage focused on clean product displays and delivering a smooth user experience (Pure JavaScript, HTML, CSS, Bootstrap).
- **RCYC Soap Game Website** - An interactive web project developed for the Red Cross Youth Council (HTML, CSS, JavaScript).
- **Heat & Temp Measuring Project** - A front-end web project focused on temperature measurement data visualization (HTML, CSS).

LEADERSHIP & VOLUNTEER EXPERIENCE"

- **Vice President - External / Business Manager** | Association of Computer Studies Students (ACSS) | *Jul 2023 – June 2026*
- **Assistant PRO** | Central Student Council & Red Cross Youth Council (RCYC) | *2025 – 2026*
- **Auditor** | Christian Community Program (CCP) | *2025 – 2026*
- **Executive Secretary** | College Y Club (CYC) | *2025 – 2026*
- **Executive Secretary / Logistics & Tech Team Lead** | AWS Learning Club UE-Caloocan | *June 2025 – June 2026*
- **Executive Secretary** | Youth for Animals UE-CAL (YFA) | *April 2025 – June 2026*
- **Team Lead - Code of Conduct & Security** | PythonAsia 2026 | *Mar 2026*
