## PROFESSIONAL SUMMARY

BS Computer Science graduate seeking entry-level opportunities across Information Technology, Technical Support, IT Operations, Service Desk, Help Desk, Software Support, Data Entry, Systems Support, and other IT-related roles. Hands-on experience troubleshooting software and web application issues, supporting technical teams, working with client-server applications, databases, APIs, networking fundamentals, and cloud-based systems. Proficient in Microsoft Excel, Word, and PowerPoint, with strong data organization, documentation, communication, problem-solving, and willingness to learn new technologies and business systems.

## CORE IT SKILLS

- **Technical Support & Troubleshooting:** Software troubleshooting, basic hardware troubleshooting, issue diagnosis, debugging, user support, problem resolution, root-cause investigation
- **IT Fundamentals:** Client-server architecture, networking fundamentals, TCP/IP concepts, DNS basics, Wi-Fi and connectivity troubleshooting, operating systems fundamentals
- **Microsoft Office & Data:** Microsoft Excel, Word, PowerPoint, Google Workspace, data entry, spreadsheets, documentation, reports, presentations
- **Systems & Applications:** Web application support, browser troubleshooting, authentication, user access, role-based access control, API fundamentals
- **Programming:** Python, JavaScript, TypeScript, PHP, C++, SQL
- **Databases:** PostgreSQL, MySQL, Supabase, Firebase, Prisma
- **Web & Software:** React.js, Next.js, Node.js, Express.js, Flask, Django, REST APIs
- **Cloud & Deployment:** AWS fundamentals, EC2, RDS, S3, VPC, Cognito, API Gateway, Amplify
- **Tools:** Git, GitHub, GitHub Actions, Postman, VS Code, Vercel, n8n, Kiro, Cursor

## RELEVANT EXPERIENCE

**Web Development Intern** | JG Superstore, San Juan City | May 2025 – Jul 2025

- Supported development and maintenance of web application features and assisted in resolving front-end and functionality issues.
- Tested website changes, identified bugs, performed troubleshooting, and collaborated with developers to resolve technical problems.
- Worked with responsive web interfaces, application functionality, version control, and collaborative development workflows.
- Assisted with documentation, implementation tasks, and deployment-related activities in a team environment.

## TECHNICAL PROJECTS

**AWS Inventory Management Platform** | Full-Stack Cloud Application | 2026 – Present

- Built a full-stack inventory management dashboard using Next.js, Redux Toolkit, Node.js, Express, Prisma, and PostgreSQL.
- Developed and troubleshoot client-server communication, APIs, authentication, database operations, and user role permissions.
- Gained hands-on experience with AWS services including EC2, RDS, S3, VPC, Cognito, API Gateway, and Amplify.
- Used GitHub Actions for CI/CD and applied systematic testing and troubleshooting during development.

**PHOTON – Image-to-Code Execution Platform** | Thesis Project | 2026

- Developed an application that extracts source code from images using OCR and supports code execution through an interactive environment.
- Worked with React.js, Flask, WebSocket communication, debugging, API integration, and client-server application architecture.

**M.A.G.E. Digital Guild Platform** | Full-Stack Project | 2026

- Developed a database-backed web platform with authentication, dashboards, administrative features, social functionality, and interactive applications.
- Worked with Next.js, TypeScript, PostgreSQL/Supabase, APIs, user access management, debugging, and deployment.

## **TECHNICAL & ORGANIZATIONAL LEADERSHIP**

- AWS Learning Club – UE Caloocan | Executive Secretary / Logistics & Tech Team Lead | 2025 – 2026
- AWS User Group Philippines | Tech Support Co-Lead | 2025 – 2026
- AWS Community Day Philippines | Volunteer / Technical and Operations Support | 2025 – 2026
- Association of Computer Studies Students | Vice President for External Affairs / Business Manager | 2023 – 2026
- Python Asia 2026 (PyCon APAC) | Code of Conduct & Security Team Lead | 2026

## **EDUCATION**

**Bachelor of Science in Computer Science** | University of the East – Caloocan | Graduated 2026

## **ADDITIONAL INFORMATION**

- Languages: English and Tagalog — written and verbal communication
- Open to entry-level IT-related roles, including IT Support, Technical Support, Help Desk, Service Desk, IT Operations, Data Entry, Systems Support, and Software Support
- Available for full-time employment
